

More time for mission, not paperwork

Federal & GovCon

CrossVue is the only experienced boutique Workday consulting firm in the federal market, one of the first firms to deploy Workday in the Federal market, and part of the team who introduced Workday to the Defense industry. Our team combines innovation with deep technical and industry expertise to solve complex use cases for the federal ecosystem. We connect the dots between technology, transformation, operations, and data and analytics so agencies can spend more time focusing on their missions, not on paperwork.

Where We Stand Apart

Certified Federal Workday partner who deployed the first Workday implementation to a federal agency with a global workforce

Broke new ground by supporting the first FAR-based procurement to go live with Workday

Consistently scored above peers in delivering Workday on-time and on-budget (Raven Intelligence)

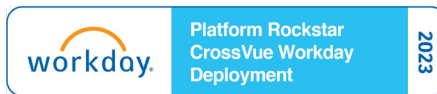

10+ years' experience delivering Workday across the commercial sector

Elite workforce of 200+ Workday professionals averaging 5+ years' experience, including public trust and TS cleared US-based people

Workday experience on over 750 projects across 140+ clients, of which 85+ are active Post Production Services clients covering all Workday SKUs

Case Study

A prominent federal agency with a global mission and workforce needed to replace their aging personnel management system with a cloud-based SaaS solution.

Solution

- CrossVue partnered with federal prime contractor, Groundswell, to bring the power of Workday
- Workday core HCM and onboarding for HQ personnel
- Workday Time and Absence for overseas personnel
- Carefully orchestrated phased deployment

Impact

- Centralized employee data into one system
- Enhanced employee experience and self-service capabilities
- Consistency in time and absence tracking
- Integrations with external systems such as USA Staffing

Value Delivered

Transformation and organizational change management solutions tailored for the federal market

Seamless Workday integration and continuous optimization via flexible, scalable post go-live offerings

Accelerated time to value through pre-built components that combine federal and Workday expertise

Effortless productivity with AI, chatbots, and data solutions, enhancing productivity and performance for your organization
