What our Clients Value

We are committed to excellence and are the dedicated team that will support you throughout your journey. Don't take our word for it; hear from one of our customers.

Working with CrossVue provided Best Friends access to extensive knowledge in all areas of Workday. Their team had a robust variety of expertise who guided and shared best practices to help Best Friends make appropriate configuration decisions. The leads were knowledgeable, consistent, transparent, responsive, and patient in helping our team understand Workday concepts.

CrossVue helped us think outside the box to find solutions to our unique business needs. They provided useful tools for project tracking, change management, and testing. They were committed to the success of the project and delivering it on time. We have continued our relationship with them with a post-production support agreement that still gives us access to their vast knowledge and expertise to help us resolve issues and optimize our Workday configuration."
